II. Certificate of Discovery

DOCUMENT REF: SRMA-2026-001

DATE OF AUTHENTICATION: March 15, 2026

ORIGIN: Kampala, Uganda

Statement of Intellectual Priority

This certificate acknowledges the original conceptualization and formalization of the Seruuma Model of Universal Gravitiesm by Seruuma Kenneth.

This framework represents a radical departure from standard astrophysics and provides a mechanical resolution to universal expansion and the structure of matter.

Core Discoveries Authenticated:

The Law of Symmetrical Existence: The principle that physical phenomena exist in inverted equivalents across different occurrences.

Gravitiesm Mechanics: The identification of gravity as inverted magnetism, operating through Sources (outward-radiating) and Drains (inward-radiating).

The Universal Centrifuge: The mechanical cause of cosmic expansion driven by the repulsion between the central Source and galactic Drains.

The Theory of Engulfment: The explanation for spherical planetary formation as a result of Universal Source field pressure.

Matter-Energy Channels: The application of field coherence for interstellar transportation.
